

Information notice on Eve Cam

If you are interested in purchasing, renting or leasing an ABB Connected Product, this information notice (“**Notice**”) provides you with information according to the Data Act (EU Regulation 2023/2854)<sup>1</sup>.

All terms in this Notice shall have the same meaning as in the Data Act.

Should you require additional information beyond what is provided in this Notice, please do not hesitate to contact us at <https://www.evehome.com>.

Details of the Connected Product and Product Data

When this Connected Product is used, its Product Data capabilities are characterised as follows (defined as ‘Direct Access’):

Connected Product	Eve Cam
Information on how to directly access and retrieve Product Data	Eve Cam does not require a user account or registration with Eve and does not operate its own cloud. The Eve app can be used to view live video and manage product settings on HomeKit services. Video recordings are handled through Apple HomeKit secure Video (HSV), which stores recording in iCloud when the product is used with a compatible iCloud + subscription.
Information on how to delete your User account and the respective data (where a Connected Product requires login via a User account)	Eve does not require an Eve user account. However, data associated with iCloud or Apple Home can be managed through the Apple ID settings. Device settings and recordings can be deleted from the Apple Home app.
Type of Product Data	Live video stream, motion events.
Format of Product Data	Live video stream (RTSP over HomeKit), recording (H.264 video in Apple proprietary format), metadata (JSON)
Estimated volume of generated Product Data	Live stream: ~1.2 Mbps (depending on network conditions) Motion metadata: small, periodic events Recordings: size depends on iCloud+ plan and user configuration (e.g., event-based recording, retention settings)
Generation frequency of the Product Data	Live video: continuous while streaming Motion metadata: generated upon motion detection Recordings: on motion events or as configured by the user in Apple Home app.
Retention period of Product Data held within the Connected Product.	Eve Cam itself does not retain video recordings internally. Data is stored in iCloud via HomeKit Secure Video according to the user’s Apple settings.

<sup>1</sup> Regulation (EU) 2023/2854 of the European Parliament and of the Council on harmonised rules on fair access to and use of data (Data Act) those terms shall have the same meaning as in that Union legislation.
