Safety Instructions

Do not connect appliances to this remote controlled socket-outlet if the instruction manual of the appliances prohibits being remote controlled (for example appliances according to EN 60335-2-9 like grills, toasters and similar portable cooking appliances, or portable kitchen appliances, or appliances with heating elements like ovens or heaters, etc.).

Do not connect any appliances to this remote controlled socket-outlet which are radiating heat and may cause ignition or burning of surrounding materials (for example radiation heaters, portable heaters, portable floodlights, desk lamps, etc.).

Take into consideration that connected appliances might be moved by pets, cleaning staff or other persons who are not aware of the remote control functions.

Do not connect any appliances with potential hazards by moving parts (for example drills, table saws, blenders, etc.).

The connection/installation of this product should be in a suitable area with the remote controlled socket-outlet easily readable and accessible for disconnection actions.

Only voltage free if the plug is pulled. **Do not connect in series.**

Specifications

Frequency range: 2402 – 2480 MHz (BLE)

2405 – 2480 MHz (Thread)

Max. EIRP: 10 dBm

Degree of protection: IP20

Class I product with earth contact in plug and socket-outlet

Pollution degree: 2

Ambient air temperature: 0 °C - 35 °C

Rated impulse withstand voltage: 2.5KV

Number of operating cycles: 10.000 cycles

Circuit disconnection: Relay

Proof Tracking Index (PTI): 175

Level of glow wire test: Level 1

Type of load: Resistive load or filament load

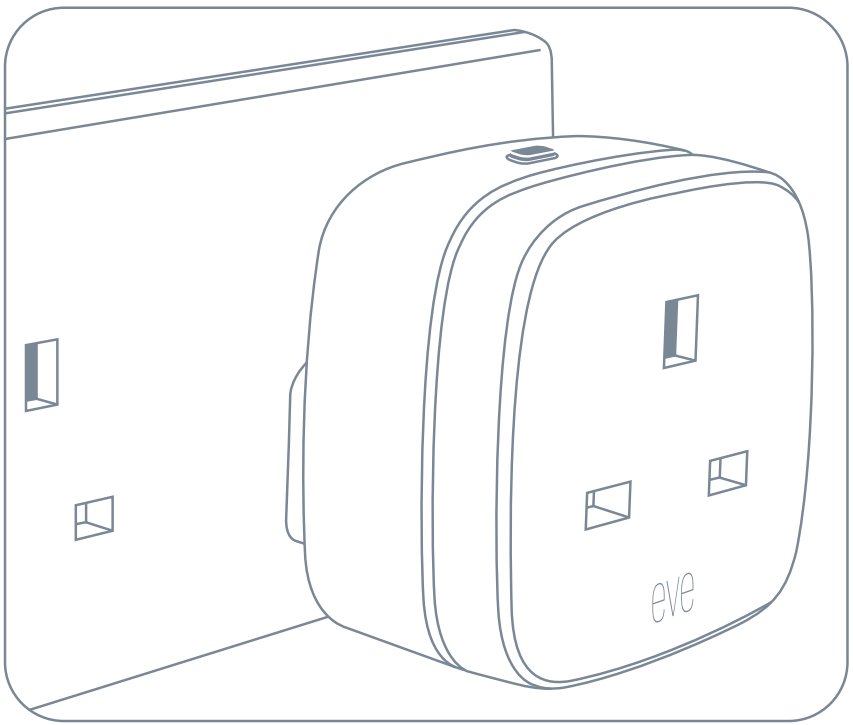

Standby Power Consumption: < 1 W

This product is not rated, intended, or certified for EV charging or other continuous high-load applications; use with such loads may cause overheating, damage, or hazard, and is prohibited.
